Stipendienurkunde

Im Rahmen des Stipendien- und Betreuungsprogramms für internationale Studierende und Doktoranden (STIBET), gefördert durch den Deutschen Akademischen Austauschdienst (DAAD) aus Mitteln des Auswärtigen Amtes (AA), verleiht die TH Köln an

Rubaiya Kabir Pranti
geboren am 14.10.1996
in Brahmanbaria, Bangladesh

ein Studienabschluss-Stipendium in Höhe von EUR 520/Monat für den Zeitraum vom 01. März 2024 bis 31. August 2024 auf der Grundlage der Entscheidung einer Auswahlkommission.

Wir beglückwünschen Sie zu diesem Stipendium und wünschen Ihnen einen erfolgreichen Aufenthalt in Deutschland. Wir hoffen, dass Sie neben Ihren fachlichen Aufgaben auch die Gelegenheit wahrnehmen werden, Ihr Gastland, seine Menschen und seine Kultur näher kennenzulernen.

Wir würden uns freuen, wenn Sie sich auch nach Ihrem Deutschlandaufenthalt für die internationale akademische Zusammenarbeit engagieren und mit der TH Köln und dem DAAD in Verbindung bleiben.

Scholarship Certificate

Under the Scholarship and Support Programme for Students and Doctoral Candidates (*Stipendien- und Betreuungsprogramms für internationale Studierende und Doktoranden, STIBET*), supported by the German Academic Exchange Service (DAAD) using funding from the German Federal Foreign Office, TH Köln awards

Rubaiya Kabir Pranti
born on 14-Oct-1996
in Brahmanbaria, Bangladesh

a graduation scholarship in the amount of EUR 520/month for the period from 01-Mar-2024 to 31-Aug-2024. The scholarship is awarded based on the decision of the selection committee.

We would like to offer our congratulations on the award of this scholarship and wish you a successful stay in Germany. We hope that, in addition to achieving your educational goals, you will use this opportunity to experience your host country, its culture and people.

We would greatly appreciate if you continued to promote international academic cooperation and stayed in touch with TH Köln and the German Academic Exchange Service (DAAD) even after your time in Germany.

DevNet Associate

The student has successfully achieved student level credential for completing the DevNet Associate course, administered by the undersigned instructor. The student was able to proficiently:

- Use basic Python programming and Linux skills.
- Implement a development environment using DevNet resources.
- Use software development and design best practices.
- Create REST API requests over HTTPs to securely integrate services.
- Explain the processes and devices that support network connectivity.
- Use current technologies to deploy and secure applications and data in a cloud environment.
- Compare software testing and deployment methods in automation and simulation environments.
- Compare Cisco platforms used for collaboration, infrastructure management, and automation.

CCNAv7: Enterprise Networking, Security, and Automation

The student has successfully achieved student level credential for completing CCNAv7: Enterprise Networking, Security, and Automation course administered by the undersigned instructor. The student was able to proficiently:

- Configure single-area OSPFv2 in both point-to-point and multiaccess networks.
- Explain how to mitigate threats and enhance network security using access control lists and security best practices.
- Implement standard IPv4 ACLs to filter traffic and secure administrative access.
- Configure NAT services on the edge router to provide IPv4 address scalability.
- Explain techniques to provide address scalability and secure remote access for WANs.
- Explain how to optimize, monitor, and troubleshoot scalable network architectures.
- Explain how networking devices implement QoS.
- Implement protocols to manage the network.
- Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

CCNAv7: Switching, Routing, and Wireless Essentials

The student has successfully achieved student level credential for completing CCNAv7: Switching, Routing, and Wireless Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot Inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

Cybersecurity Essentials

For completing the Cisco Networking Academy® Cybersecurity Essentials course, and demonstrating the following abilities:

- Describe the tactics, techniques and procedures used by cyber criminals.
- Describe the principles of confidentiality, integrity, and availability as they relate to data states and cybersecurity countermeasures.
- Describe technologies, products and procedures used to protect confidentiality, ensure integrity and provide high availability.
- Explain how cybersecurity professionals use technologies, processes and procedures to defend all components of the network.
- Explain the purpose of laws related to cybersecurity.
